I. READING

A. Read the passage carefully and choose the correct answer to fill in each blank :

In many parts of (1)world, forests are being cut (2) to make land for farming. (3) leads to many problems, but the most obvious one is that wild animals lose their homes. (4)to FAO, of all the land we use for farming, 77% is used for livestock, including the land we use to grow their food **. If we (5) less meat and planted more food for humans, we would have more land for forests and wild animals.

- | | | | |
|-----------------|------------------|--------------|------------------|
| 1. A. a | B. an | C. the | D. no article |
| 2. A. off | B. down | C. into | D. up |
| 3. A. forestry | B. afforestation | C. forester | D. deforestation |
| 4. A. According | B. Because | C. Instead | D. Despite |
| 5. A. eat | B. have eaten | C. had eaten | D. ate |

B. Choose the item among A, B, C or D that best answers the question about the passage.

One of the most urgent environment problems in the world today is the shortage of clean water. Having clean drinking water is a basic human right. But acid rain, industrial pollution and garbage have made many sources of water undrinkable. Lakes and even entire seas have become large pools of poison. Lake Baikal in Russia is one of largest lake in the world. It contains a rich variety of animals and plants, including 1,300 rare species that do not exist anywhere else in the world. But **they** are being destroyed by the massive volumes of industrial pollutants which pour into the lake every day. Even where law existed, the government did not have the power to enforce them. Most industries simply ignore the regulations. The Mediterranean Sea occupies 1% of the world's water surface. But it is the dumping ground for 50% of all marine pollution. Almost sixteen countries regularly throw industrial wastes a few miles off shore. Water is free to everyone. A few years ago people thought that the supply of clean water in the world was limitless. Today, many water supplies have been ruined by pollution and sewage. Clean water is now scarce, and we are at last beginning to respect this precious source. We should do something now.

6. How many countries throw industrial wastes into the Mediterranean Sea regularly?
A. exactly 16 B. nearly 16 C. exactly 15 D. less than 15
7. One environment problem in the world today is
A. industrial pollution B. population explosion C. acid rain D. lack of fresh water
8. Many sources of water are not drinkable because of
A. industrial pollution B. garbage
C. acid rain, industrial pollution and garbage D. acid rain
9. The word “**they**” in line 5 means.....
A. rare species B. plants C. animals D. pollutants
10. What is the message to the readers?
A. We should use a lot of clean water.
B. We should encourage people to use safe water.
C. We should do something protect our water resources.
D. We should limit the clean water in the world.
